

# Stillwater Elementary PTSA Hop-a-Thon

On Wednesday, November 6<sup>th</sup> all Stillwater students will participate in the PTSA's largest fundraiser of the year, the Hop-a-Thon. The success and participation from all students for our fundraisers is imperative to keep PTSA programs and events in place each year. This is a 100% donation based fundraiser, we are not asking students to sell items. Students will have fun hopping with their classmates during their specialist time on November 6th after collecting flat donations from sponsors. Sponsors can include friends, family, neighbors and other community members. Students record and collect all donations on this fundraising envelope and return to Stillwater by 4 PM on November 6<sup>th</sup>. Online Donations can also be made until November 6<sup>th</sup> at <http://stillwaterptsa.org/hopathon/>. Students, be sure to check and see if your sponsor works for a company that will match their donation. **All donations are tax deductible!!!** Your check or online donation confirmation email would be your receipt for tax purposes. If you donate cash and require a receipt please email [fundraising@stillwaterptsa.org](mailto:fundraising@stillwaterptsa.org). **The suggested minimum fundraising goal per student is \$35.**

Each class has been given a goal for the Hop-a-Thon based off of the total number of students in each class. **If the class hits their goal, they will win a Purple Cow\* party**, the date will be coordinated with the teacher. Below is the complete list of classroom goals. Please note that special consideration will be made for those students that go above and beyond but the class still does not hit the goal. \*Grape soda float, students will have the option of just choosing the grape soda or the vanilla ice cream.

*Classroom Goal Calculation: Our goal is for the school to exceed \$14,000, which makes the goal per student approximately \$27. All classroom goals were set taking the number of kids in each class and multiplying by \$27. The suggested minimum fundraising goal per student is \$35, this allows us to account for the impact of historical participation rates. During the Hawk Walk last year, our participation rate was about 68%. With a \$35 suggested minimum fundraising goal per student, that is planning closer to an 77% participation rate.*
